

Preparing your building for REOCCUPATION

Ten FM services we can provide to take care of your environment during this outbreak

As organisations are protecting their people across the UK with social distancing in their spaces, here are a few services we can offer to make the transitions between occupation levels easier:

1. Enhanced COVID-19 cleaning and prevention

2. Ensuring remote productivity through server room health checks

3. Vacant property patrols to keep your assets secure

4. Washroom upgrades to touch-free technology for greater hygiene

5. Assessing and setting up your workstations for reoccupation

6. Carrying out full surface testing and decontamination programmes

7. Improving air quality through monitoring, particulate removal and sanitisation

8. Bringing forward periodic and specialist cleans

9. Car park refurbishment works

10. Developing your reoccupation strategy to get 'back to business'
