

Is your facility ready for business post COVID-19?

We have supported our customers in various ways throughout this pandemic and our team of experts are ready to support you further in preparing to get back to business

As your facilities prepare to return to normal occupancy levels, providing peace of mind is vital. ABM is uniquely positioned to help you prevent the spread of pathogens through a comprehensive approach to building disinfection, maintenance and a new way of working. By employing ABM's three-tiered **ENHANCEDClean**™ programme, you're assured to be doing your part to create healthier spaces, whether it's in preparation for reopening, maintaining an increased level of wellbeing, or to respond to emergent situations.

Tier 1 Pre re-occupancy

Preparedness is key. We have experts around the UK ready to support your re-occupancy strategy with a straight forward checklist as you prepare to reopen your facility and welcome back your people.

Tier 2 The new normal

We will help you adjust to the new normal with new cleaning and maintenance strategies that are built to reduce risk to your people and operation while increasing your day-to-day resilience.

Tier 3 Enhanced periodic programme

We can provide specialist services that have been developed for optimal wellbeing and hygiene across your spaces, protecting your environment so that it is not only safe to reopen, but to stay open.
