

ABM UK REMAINS IN THE TOP 3% OF SIA ACCREDITED SECURITY COMPANIES IN THE UK

ABM UK's annual Approved Contractor Scheme (ACS) Security audit has placed the company in the top 3% of Security Industry Authority (SIA) accredited security companies in the UK. This means that ABM continues to be recognised as an ACS Pacesetter, at the very top percentile of 810 SIA-approved security companies in the UK.

What does this mean for our clients?

ACS Pacesetter membership is restricted to the top 120 organisations that can prove they are market leaders in the security industry, providing an excellent standard of service to their clients and a high degree of care for their employees. For ABM, it provides clients with a transparent view of the audit results and high standards whilst allowing the company to demonstrate that it performs far above the expected industry standard.

This year ABM has picked up an additional three good industry practices, meaning that for three successive years it has received this additional recognition giving ABM a total of 11 during the last three audits - an unprecedented achievement.

ABM would like to extend thanks to all their security and site management teams operating throughout the UK at 80+ locations; the work they carry out does not go unnoticed. The auditor was very impressed with the quality and governance in place.

ABOUT ABM

ABM (NYSE: ABM) is one of the world's largest providers of integrated facility services. A driving force for a cleaner, healthier, and more sustainable world, ABM provides essential services that improve the spaces and places that matter most.
