

ABM SECURES CLEANING AND SECURITY BRIEF FOR LONDONENERGY

26 October 2022 – [ABM](#), one of the world's largest providers of integrated facility services has been awarded a contract from [LondonEnergy](#), which delivers waste and resource management services for north London.

The multi-year contract will see ABM provide cleaning and security services across six sites, including LondonEnergy's head office, all based in the capital.

ABM was awarded the contract, which begins this month, following a competitive pitch process. The leading facilities management provider impressed with its technical capability and expertise, which will further improve the workplace environment for employees and visitors.

Leveraging the expertise of Lee Fitzgerald, Divisional Director, the team will deliver integrated cleaning and security services across several sites within the LondonEnergy estate. ABM will enhance the service using new technology systems and training. The site will be led by a dedicated contract manager, based on site at EcoPark, to ensure consistent customer service delivery across all services.

By helping the residents of north London recycle, reuse, and recover energy from their waste, LondonEnergy generates enough sustainable energy to power 80,000 homes and businesses in north London every year.

Lee Fitzgerald, Divisional Director at ABM comments: "LondonEnergy is delivering some fantastic work across north London, so we're absolutely thrilled to be working with the team and playing a role in the support they offer its residents.

“This is a huge opportunity for us to showcase our technical ability and industry expertise to the waste management industry. All the work we deliver will be in line with LondonEnergy’s impressive sustainability commitments and we look forward to being part of their mission.”

The six sites that ABM will be managing are based in north London with further growth expected in the contract next year.

Rosh Bibi, Real Estates Manager at LondonEnergy, says: “ABM’s technical capability, extensive experience and operational approach together with its own drive to deliver sustainable initiatives and reporting across its divisions in the UK, made them a natural fit. We look forward to a successful partnership and together making London a greener, cleaner, and healthier place.”

About LondonEnergy

LondonEnergy Ltd is wholly owned by the North London Waste Authority (NLWA) and is contracted to provide waste management services to its seven North London boroughs - Barnet, Camden, Enfield, Hackney, Haringey, Islington, Waltham Forest.

LondonEnergy operates the second largest waste contract in the UK, handling and treating nearly 750,000 tonnes of North London's waste and recyclables and generates enough electricity to power more than 80,000 homes every year. They divert more than 90% of waste away from landfill saving nearly 300,000 tonnes of CO₂e every year. As well as its flagship Energy from Waste facility and head office in Edmonton, the company operates the Hendon Transfer Station, Hornsey Street Waste Recycling Centre and six Reuse and Recycling Centres across North London achieving over 70% recycling rate.
